

## Rocine Lesson 20

וַיֹּאמֶר עָלַי לְשִׁמוּאֵל לֵךְ שֹׁכֵב וְהָיָה אִם-יִקְרָא אֵלַיִךְ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַע עֲבָדְךָ וַיֵּלֶךְ שִׁמוּאֵל וַיִּשְׁכַּב  
בְּמִקְוֵמוֹ:

1 Samuel 3:9

# Goals

- Identify and read Qal and Piel **imperatives** in all genders and numbers.
- Use verb forms to locate the **boundaries between discourses**.
- Also
  - *Furtive patach*
  - When to use *and vs. then*

# What we already know

וַיֹּאמֶר עֲלֵי לְשִׁמוּאֵל לֵךְ שֹׁכֵב וְהָיָה אִם־יִקְרָא אֵלַיְךָ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַע עֲבָדְךָ וַיֵּלֶךְ שִׁמוּאֵל וַיִּשְׁכַּב  
בְּמִקְוָמוֹ:

- Identify the wayyiqtoles

# What we already know

וַיֹּאמֶר עֲלֵי לְשִׁמוּאֵל לֵךְ שֹׁכֵב וְהָיָה אִם־יִקְרָא אֵלַיִךְ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַעַ עֲבַדְךָ וַיֵּלֶךְ שְׁמוּאֵל וַיִּשְׁכַּב  
בְּמִקְוָמוֹ:

**Side Note:** This is an 'a' vowel rather than an 'o' vowel because the verb is stative (as opposed to dynamic). Stative verbs typically have an 'a' theme vowel in the prefix conjugations (yiqtol, wayyiqtol, etc.). Cf. וַיִּקְטֹל or וַיִּקְטַל (Rocine 17.4c).

# What we already know

וַיֹּאמֶר עָלַי לְשִׁמוּאֵל לֵךְ שָׁכַב וְהָיָה אִם־יִקְרָא אֵלַיִךְ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַעַ עַבְדְּךָ  
וַיֵּלֶךְ שְׁמוּאֵל  
וַיִּשְׁכַּב בְּמִקְוָמוֹ:

**Wayyiqtol** is the mainline verb form for Historical Narrative, so we can reformat the text to reflect that.

# What we already know

וַיֹּאמֶר עָלַי לְשִׁמוּאֵל לֵךְ שֹׁכֵב וְהָיָה אִם־יִקְרָא אֵלַיךָ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַע עַבְדְּךָ

- Identify the Qal imperatives

# What we already know

וַיֹּאמֶר עָלַי לְשִׁמוּאֵל לֵךְ שָׁב וְהָיָה אִם-יִקְרָא אֵלַיךָ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַע עַבְדְּךָ  
וַיֵּלֶךְ שְׁמוּאֵל  
וַיֵּשֶׁב בְּמִקְוָמוֹ:

- There are two Qal imperatives
  - Both are masculine, singular (cf. Rocine 19.2)
  - שָׁב is stative, which is why it has the ‘a’ vowel.
    - Sometimes with a qamets as above (1 Sam 3:5,6,9)
    - Sometimes it is spelled with a patach שָׁב (2 Sam 13:5, Ezek 4:4)

- Identify the weqatals

וַיֵּלֶךְ שְׁמוּאֵל  
וַיֵּשֶׁב בְּמִקְוָמוֹ:

- There is one **yiqtol**
  - What is it's PGN?
  - Is it in a dependent or independent clause?
    - (cf. Rocine 2.1 & 4.2b)

# What we already know

וַיֵּלֶךְ שִׁמוּאֵל  
וַיִּשְׁכַּב בְּמִקְוָמוֹ:

- There is one **participle**
  - What is it's gender, number? (remember participles have no person)

↑  
furtive  
patach

## RULE:

- When a word ends with *khet* ך or *ayin* ע and has a *patakh* as its vowel, the *patakh* will be written slightly to the right of normal in your Bible and is called *furtive patakh*.
- The *furtive patakh* is to be pronounced before its accompanying consonant, rather than after, as normal.
- The *furtive patakh* also usually shifts the emphasis in a word from its last syllable to the second to the last.

# What we already know

וַיֹּאמֶר עָלַי לְשִׁמוּאֵל לֵךְ שֹׁכֵב וְהָיָה אִם-יִקְרָא אֵלַיךְ  
וְאָמַרְתָּ דְבַר יְהוָה כִּי שָׁמַעַ עַבְדְּךָ  
וַיֵּלֶךְ שִׁמוּאֵל  
וַיִּשְׁכַּב בְּמִקְוָמוֹ:

- Finally there is one verb remaining.
- It is a Piel imperative
- How does it look different than the Qal imperative?

(We'll compare Qal and Piel imperatives before returning to our lesson verse.)

# Qal Imperatives (Review)

	Qatal 3ms	Yiqtol 2ms	Imperative ms
III-Guttural	שְׁמַע	תִּשְׁמַע	שְׁמַע
I-Nun	נִתֵּן	תִּתֵּן	תֵּן
I-Yod	יִצֵּא	תִּצֵּא	צֵא
(like I-Nun)	לִקַּח	תִּקַּח	קַח
(like I-Yod)	הִלֵּךְ	תִּלֵּךְ	לֵךְ
Strong	פָּקַד	תִּפְקַד	פְּקַד

# Qal Imperatives (Review)

	Qatal 3ms	Yiqtol 2ms	Imperative ms
III-Guttural	שְׁמַע	תִּשְׁמַע	שְׁמַע
I-Nun	נִתֵּן	תִּתֵּן	תֵּן
I-Yod	יִצֵּא	תִּצֵּא	צֵא
(like I-Nun)	לִקַּח	תִּקַּח	קַח
(like I-Yod)	הִלֵּךְ	תִּלֵּךְ	לֵךְ
Strong	פָּקַד	תִּפְקַד	פְּקַד

1. A shewa at the beginning is supposed to be the “sign” of the Qal ms imperative (cf. see rule in Rocine 19.2a) but in reality in many weak verbs the shewa is missing.
2. Most imperatives are weak verbs.
3. The second vowel (sometimes called the theme vowel) is NOT an indicator of the imperative (note the variety above).

So how do we identify imperatives?

# Qal Imperatives (Review)

	Qatal 3ms	Yiqtol 2ms	Imperative ms
III-Guttural	שְׁמַע	תִּשְׁמַע	שְׁמַע
I-Nun	נִתֵּן	תִּתֵּן	תֵּן
I-Yod	יִצֵּא	תִּצֵּא	צֵא
(like I-Nun)	לִקַּח	תִּקַּח	קַח
(like I-Yod)	הִלֵּךְ	תִּלֵּךְ	לֵךְ
Strong	פָּקַד	תִּפְקַד	פְּקַד

The best way to identify imperatives is to

1. Learn the strong verb imperative paradigm (next slide) (It's only 4 words.)
2. Be familiar with the yiqtol form from which the imperative derives.
3. Recognize that the imperative will typically be shorter, in sound and number of letters. This is a visual and auditory clue. Imperatives are quite naked, so to speak.

# Qal & Piel Imperative Paradigm

	Qal	Piel
ms	פְּקֹד	דַּבֵּר
fs	פְּקֹדִי	דַּבְּרִי
mpl	פְּקֹדוּ	דַּבְּרוּ
fpl	פְּקֹדְנָה	דַּבְּרְנָה

# Qal & Piel Imperative Paradigm

	Qal	Piel
ms	פִּקֹּד	דַּבֵּר
fs	פִּקְדִי	דַּבְּרִי
mpl	פִּקְדוּ	דַּבְּרוּ
fpl	פִּקְדְּנָה	דַּבְּרְנָה

Note the *hireqs* here.

- This is due to a rule of shewa that comes into effect when you have 2 initial *shewas* in a word.
- See [animatedhebrew lecture 20](#) for details.

# Qal & Piel Imperative Paradigm

	Qal	Piel
ms	פִּקֹּד	דַּבֵּר
fs	פִּקְדִי	דַּבְּרִי
mpl	פִּקְדוּ	דַּבְּרוּ
fpl	פִּקְדֹּנָה	דַּבְּרֹנָה

Memorize the Qal Paradigm

Note that

- *Shewa* marks the Qal imperative
- *Patach* marks the Piel imperative

# Determining Genres

- How many different genres are in this verse?
- Where do the genres switch?

(See the next slide for a reminder of genres and verb forms.)

A switch of subject is a good place to translate the *waw* of the *wayyiqtol* as “then” rather than the usual “and” or leaving it untranslated.
